d) Use of the Matomo web analysis service

Erbe uses the Matomo open source web analysis service (formerly Piwik) on the website to analyze and regularly improve the use of Erbe's website. These statistics can help Erbe to improve its services and make them more interesting for you as a user.

Cookies are stored on your computer for this evaluation. Cookies are small text files that are stored on your computer when you visit the website. Cookies help Erbe to determine the frequency of use and the number of users of the website and to make Erbe's offers as convenient and efficient as possible for you. If individual pages of the website are called up, the following data is stored by Erbe: two bytes of the IP address of the system accessed by you; the accessed website; the website from which you accessed the called up website (so-called referrer); the sub-pages that you accessed from the called up website; the duration of your stay on the website; the frequency of accessing the website. Erbe stores the data collected in this way exclusively on Erbe's server in Germany. The data are not passed on to third parties. The data will be deleted as soon as Erbe no longer needs them for the purposes mentioned. This is the case after 3 years.

This website uses Matomo with the "IP Anonymization" extension. This does not save IP addresses completely, but masks two bytes of the IP address (e.g.: 194.147.xxx.xxx). In this way it is not possible to assign the shortened IP address to the calling computer. The IP address transmitted by your browser using Matomo will not be merged with other data collected by Erbe.

You can prevent the evaluation of data by Erbe through the use of Matomo by deleting existing cookies and preventing the storage of cookies. You can do this by changing the settings in your Internet browser by deactivating or restricting the transfer of cookies. You can delete already stored cookies at any time. However, if cookies are deactivated for the website, not all functions of the website may possibly be able to be used in full.

Information on data protection from Matomo is available at <https://matomo.org/privacy-policy/>.

The legal basis for the use of Matomo is Art. 6 Section 1 Sentence 1 Letter f of the GDPR.

Erbe uses Google Maps for the website to display interactive maps and to create directions. Google Maps is a map service of Google Inc, 1600 Amphitheatre Parkway, Mountain View, California 94043, USA ("Google").

When you visit an Erbe website that contains Google Maps, your browser connects directly to Google's servers. The map content is transmitted by Google directly to your browser and integrated into the website. Google may process the following data from you, in particular:

- date and time of your visit to the website,
- the internet address or URL of the visited website,
- the IP address,
- the (start) address entered in route planning,

- location-related information, such as possibly your actual location.

If you have a Google Account, this information can be linked to your Google Account. For more information on how to view, manage or delete information associated with your Google Account, please see Google's privacy policy at <https://policies.google.com/privacy>.

Erbe has no influence on the processing and use of the data by Google and can therefore assume no responsibility for this.

You can also set your browser to block all cookies, including cookies linked to Google services, or to display a message when a cookie is set by Google. However, in this case, however, the Google Maps map display may no longer function properly.

Google's privacy policy <https://policies.google.com/privacy> and the additional terms of use for Google Maps/Google Earth apply to the processing and use of the data by Google as well as your rights and setting options for the protection of your privacy http://www.google.com/intl/de_de/help/terms_maps.html.

The legal basis for the use of Google Maps is Art. 6 Section 1 Sentence 1 Letter f of the GDPR.

f) Google Fonts

Erbe uses so-called web fonts provided by Google to uniformly display fonts. When visiting the website, your browser loads the required web fonts into your browser cache to display texts and fonts correctly. These web fonts are integrated by calling up Google's servers. Google may possibly process your data in this instance. Erbe has no influence on the processing and use of the data by Google and can therefore assume no responsibility for this.

More information about Google Web Fonts can be found at <https://developers.google.com/fonts> and in Google's privacy policy: <https://policies.google.com/privacy>.

Erbe integrates videos on its website via Vimeo.com. This is a service provided by Vimeo Inc, 555 West 18th Street, New York, New York 10011, USA ("Vimeo").

When you access videos via Vimeo, a connection to Vimeo's servers is established. This may possibly allow a Vimeo server to know which Erbe website you have visited. If you are logged in as a member of Vimeo, Vimeo will assign this information to your personal user account. When using the plug-in, for example when clicking the start button of a video, this information is also assigned to your user account. You can prevent this assignment by logging out of your Vimeo account and deleting the corresponding Vimeo cookies before using our website.

Erbe does not receive information on the content of the data collected by Vimeo or third parties and has no influence on their use. By integrating videos, Vimeo can also receive information that your browser has called up the corresponding page of this website, even if you do not have a Vimeo user account or are not currently logged in to Vimeo.
